Coal.

Hon. John Sharp has written to Superintendent J. T. Clark, of the Union Pacific, regarding the scarcity of coal which occurs here periodically. Mr. Clark, in his reply, states that in future there will be no necessity for a scarcity of coal here, and gives assurance that Salt Lake will be supplied with all the coal that may be required.

New Fruits and Spices just arrived at

David.

Will Sell Cheap.

I am tired of the Second-Hand business and positively do intend to wind up my interest in Salt Lake City. My stock consists of Household Goods, Linens, Carpets, etc. The Largest Stock in the Territory.

J. CHASE.

IT IS TRULY WONDERFUL

To see what improvements now exist as compared with railway travel only a few years ago. To become conversant of this, one has only to select for his route East, the popular and well-known CHICAGO & NORTHWESTERN RAILWAY. You are located by the Union Pacific Railroad in the Union Depot at Central Block, where the C. & N. W. Palace Train, composed of Pullman Hotel Cars, Pullman Sleeping Cars, Elegant Day Coaches, Smoking, Baggage, Postal Cars, etc., ready to convey its passengers through Illinois and Indiana, into Chicago. Gliding smoothly along over the superb track of steel rails through thriving cities and villages, comfortably seated in this train, one scarcely discovers the high rate of speed which he is riding. Trains of this road are always on time, connections sure, and passengers seeking pleasure, comfort, safety and ease in traveling, will find the "North-Western" in excess of their expectations, and the greatest of all routes to Chicago and the East. In select Ticket Agents selling you Tickets via this Road; all Agents sell them. Examine your Ticket, and learn to buy it; do not read over this Road. If you wish the Best Traveling Accommodations, you will buy your Ticket via this Route. **AND WILL TAKE NO OTHER.**

TABERNACLE SERVICES.

On Sunday afternoon the services in the Tabernacle began by the choir singing the hymn commencing: Rise, long the wall will stand in vain, etc.

Prayer by Elder John T. Cairne.

The choir sang the hymn beginning:

How great the wisdom and the love, etc.

ELDER MILO ANDRUS addressed the congregation, saying on a certain occasion the Savior asked one of his apostles a peculiar question: "Lovest thou me more than these?" He replied, Thou knowest I love thee, and the Savior said feed my sheep. Three times the question and answer were repeated. It seemed an imperative duty upon the shepherd that the flock of Christ must be fed with that kind of spiritual food which comes from heaven. It was the duty of those who had charge of the flock to procure that food; the matter under food was so palatable to the sheep, and caused them to grow in the knowledge of truth. It was the same to-day, for God had given the truth to the world by Joseph Smith. When Joseph looked for the true flock of God, he learned that it had all gone astray, and the boy was told to follow none of them. Then God began to lay his plans for gathering his flock, and commissioned Joseph Smith to inaugurate the work. That movement caused a sensation throughout all Christendom, and stirred up enmity against the movement. It was because they were opposed to the work of God? There was no sin in drawing men closer to his Maker. There was no sin in believing in faith and baptism for the remission of sins. By David's question that the Christian world should try to crush out the truth as established upon the earth by God. Some said that the saints were all right in their practices and teachings, except in the Jewish order of marriage. The speaker said that he was one who had to guard the temple in Nauvoo, and protect the persons and property of the saints from mobs, long before the revelation in regard to marriage had been received. Elder Andrus related briefly the story of the early persecutions of the saints in Ohio, Missouri and Illinois, saying it was not polygamy or any wrong doing that brought persecution upon the saints. It was because they were engaged in the work of spreading God's gospel over the earth, and thereby combating the evil one, and his teachings. Those who were light on the truth were persecuted by Satan. But it made no difference what the opposition was. The gospel work would roll on. It would be better for this generation if it related to fight against the gospel; but the opposition did not stay the work. Elder Andrus was not much in sympathy with the love that the Christian world expressed for the saints who were persecuted. The time would come when God would make all listen to his gospel, and when the world would know that Joseph Smith was a prophet of the Lord. It had been predicted many centuries ago, by Daniel, that this kingdom should be set up; and that it should grow until it filled the whole earth, and crushed out all other kingdoms. No hind could stop its growth, or stay its progress.

President GROSVENOR, C. CANNON and it was much cheering to listen to the testimony of one like Elder Andrus, who had been for many years engaged in the gospel work. The life of a saint who had been true to his faith from the beginning of the work was rich in experience. He had been tested to the core. The saints had had trials, persecutions, sufferings, poverty, and latterly they had been blessed with prosperity. It was right that they should be tested as no other people had been tested. They were struggling to attain a higher degree of exaltation and glory than any other people were striving for. They could not obtain what they sought without persecution. If they were not persecuted, they would not be tested. They were not the people of God. There were two religious principles in operation on the earth—truth and error, light and darkness. These antagonistic principles have always been upon the earth. When error had ruled, and swept truth from the field, then there has been a season of quiet, and apparent peace. At such times it seemed as if the antagonism had ceased. But when truth has asserted itself and proclaimed its rights, then the antagonism has been revived, and it is by the hottest stock of dry goods ever shown here, and have many genuine bargains to offer. We call special attention to our Cloak and Dolman department; our garments are better made, and show more elegant styles than any others to be found in the city. Our Cotton and Woolen Hosiery are also of a very superior character; we are able to show many styles in this department not to be found elsewhere.

FINE SALT, 60¢ per 100 at

G. F. BROOKS.

That Conscientious Concern.

Not only did the ex-Herald company pocket the \$1,200 bonus given it by the citizens of Frisco to start the Times, but it was the author of another piece of business which gives evidence of the honor which characterizes its transactions. It was stated that the company had spent about \$150 in starting the Times, which amount is the price paid Mr. King for it, thus making the Times a gainer of \$1,050 clear, and which in some countries would be considered akin to robbery, but is not here. But we placed the figure upon it starting the Times too high. It will be seen that all the type is next door to worn out stuff, and could have cost the company nothing, so that \$150 would be a handsome allowance for the outfit of the honorable concern. The company, when it started the Times, got as many advertisers as would pay in advance; the same course was pursued with the subscribers and has been kept up until the date of the sale, and Mr. King, in addition to paying the \$250 for the paper, is responsible for the indebtedness incurred in the payment of money to the concern in advance. Thus the ex-Herald makes another piece of business, and it is about \$1,300 beside. Verily, it is a conscientious concern.

The Best Meal Between Chicago and San Francisco, for 25¢.

Gardner's, 58 Main street.

They Have Arrived.

Ladies', Misses' and Children's Cloaks and Dolmans, all styles and prices.

Also an Elegant line of Brocade Shawls, all styles and prices.

Call and see the ladies' every thing. Call and see.

W. JENNINGS & SONS.

A Water Case.

The good people of East Mill Creek have been indulging in a little pleasantness over their water. The true status of the case is not comestable at present, but it appears that the watermaster considered certain individuals were taking more water than properly belonged to them. In order to stop a step to this they built a very strong dam. By some means the good ladies of the locality came to take lively interest in the case, and as a result set to work to show their power. They did not like the dam, and a bevy of them marched to the place and the presence of the watermaster, waded into the water and made it lively for the dam. They knocked it, figuratively speaking, to a future existence. The dam was just what another portion of the citizens wanted, and when it had been thus ruthlessly demolished by these modern Amazonians they made out a complaint against all the parties interested. The women and one of the watermasters, charging latter with being necessary. The case was within the precinct presided over by Justice Suedaker, but a change of venue was asked and the case transferred to Judge Eyer's court. There are some eleven or twelve ladies interested in the case, all charged with aiding in demolishing the dam, and they are to be tried separately. The watermaster's case was disposed of first, and he was acquitted from complicity by a jury. The other cases were then postponed until the 10th of next month. The counsel for the ladies threatened to bring into question the validity of the irrigation law. The people of East Mill Creek are greatly exercised over the matter, and with them it is a question next to one of national importance.

Furniture, Etc.

We have a large new and well selected stock of Furniture, Carpets of all kinds, Feather, Pillows and general upholstery.

Strangers' Attention.

The Tom & Jerry made by Auer & Murphy are simply delicious.

Runaway and Accident.

A genuine runaway took place in City Creek Cañon on Monday afternoon. The light wagon of Woods & May was coming down the cañon with flour in it. A wagon belonging to Gen. D. H. Wells was being loaded with flour and wheat at the mill. The seat being in the way, the driver went to put it on the platform, when it touched one of the horses, which kicked and started off down the cañon. The driver, who had one leg on the platform and the other on the wagon, fell and the wheel passed over his leg, but did not hurt him very badly. He got up and commenced running after the team as fast as he could. A few rods above the water tank the double team came up to that of Woods & May, and ran into it, breaking the wagon, but not touching the driver. A boy named Edwards, the collision knocked Gen. Wells' wagon into the creek. The wagon was badly damaged, and one of the horses received eleven or twelve cuts, none of which, however, are considered very serious. The boy Edwards, who was driving Woods & May's horse, sustained some injuries on the body and on the face, the latter being pretty badly scratched. He was thrown out of the wagon, and both his own and that of Gen. Wells' teamster came up he was lying insensible. The driver ran down the cañon and notified Dr. Benedict of the occurrence, and he was taken to the spot. He found that no bones had been broken and the boy was taken to his home.

Tom and Jerry.
